

SELPHY CP1500

LAB-QUALITY, LONG-LASTING PRINTS – DELIVERED IN SECONDS

All the family can create lab-quality prints for albums, crafting, gifting and display with this fast, wireless and simple-to-use photo printer.

- **Beautiful photos, fast**
Create vibrant lab-quality photos with 16.7 million colours. Fast dye-sublimation technology means ready-to-handle postcard-sized prints in 41 seconds.
- **Prints that last**
Thanks to a special protective coating, your photos will last up to 100 years¹ when stored in an album. They're water, scratch and fingerprint resistant too.
- **Sizes to suit you**
Print beautifully vibrant images in a range of sizes, ranging from postcard (100 x 148mm) to mini sticker (22 x 17.3mm), great for scrapbooking, crafting and gifting.
- **Simple wireless operation**
Print simply and wirelessly from your smart device using the SELPHY Photo Layout app. Create customised prints with stamps, filters, pattern overcoats and share links with printed QR codes.
- **Space-saving and stylish design**
This is a printer that's a pleasure to live with and simple to operate thanks to its compact size, large LCD screen, wireless connection and choice of three chic colour finishes.
- **Connect your way**
Connect wirelessly to smart devices, computers and cameras², or via USB-C for computers, cameras and USB flash drives. Or simply print direct from SD, SDHC and SDXC cards with the built-in reader.

² PictBridge-compatible cameras.

TECHNICAL SPECIFICATIONS

SELPHY CP1500

PRINTING SYSTEM

Method	Dye-sublimation thermal transfer printing system
Maximum Resolution	300 x 300 dpi
Colours	3 colour inks (yellow, cyan, magenta) with protective over coating 256 shades per colour (24 bit colour depth)

MEDIA & CARTRIDGE

Compatible Cassettes

Postcard Size	PCP-CP400 PCC-CP400 100 x 148mm
L Size	89 x 119mm
Card Size ^[2]	54 x 86mm
Credit Card Size Stickers KC-18IF	54 x 86mm
Square Stickers KC-18IS	54 x 54mm
Mini Stickers KC-18IL	22 x 17.3mm
Sticker paper	72 x 85 mm
Ink Cartridge	Included with media
Image Longevity	100 Years Print ^[1]

MEDIA INPUT

Sheet Feeder	Auto feed from paper cassette
--------------	-------------------------------

PRINT SPEEDS ^[2]

Postcard Size	Approx. 41 sec
Credit Card Size	Approx. 23 sec

PRINTING

Print Modes	Controlled by SELPHY Photo Layout app
Print Settings	Controlled by SELPHY Photo Layout app

PRINT METHOD

Direct Printing From a Camera	USB/Wi-Fi
Direct From a Memory Card	SD/SDHC Micro SD/Micro SDHC ^[3] Mini SD/Mini SDHC ^[3]
Direct From a Smart Phone	Compatible iOS and Android devices via Wi-Fi, using app SELPHY Photo Layout
Direct From Internal Memory	Not supported
Print From a Computer	Windows, Mac OS, Chrome OS, IPP everywhere

INTERFACE

Camera	PictBridge - USB/Wi-Fi
Computer	USB-C
TV Viewer	Not supported
LCD Monitor	Fixed position 3.5", 230K dot LCD

SUPPORTED OPERATING SYSTEM

PC	Supported
Macintosh	Supported
Chrome OS	Supported

POWER SOURCE

AC Power Supply	[NEW] CA-CP300 B
Battery Pack	NB-CP2LI
Power Consumption	Less than 60W Less than 4W (standby)

PHYSICAL SPECIFICATIONS

Operating Environment	5 - 40 °C, 20 - 80% humidity
Dimensions	Approx. 182.2 x 57.6 x 133 mm (excluding protrusions) (WxHxD)
Weight	Approx 850g

All data is based on Canon's standard testing methods.
Subject to change without notice.

Footnotes:-

^[1] To test the image permanence of prints that are stored in an album, we use an accelerated testing method similar to how the image permanence of silver-halide photo papers are measured when stored in dark places. Print samples are printed with the optical density of 1.0 (each Bk, C, M, Y). The samples are kept in a certain environment of high temperature and 50% humidity. The rate of the decrease in the optical density and rate of yellow discoloration are recorded. The recorded results are then converted to the length of time when print image is kept in an environment of 23°C/ 50% humidity. <Criteria for estimation of print longevity> The point where monochromatic/reflective optical density shows loss of 30% (starting density of 1.0).

^[2] Print speed can vary dependent on data size, print method, memory card and capacity and is measured from start of printing excluding paper handling

^[3] Requires adapter (sold separately)
