A portable AC with high cooling capacity that is suitable for larger rooms up to 30 m². In addition to the cooling function, it also includes a dehumidification mode, fan and heating. (Stock levels are based on forecast. If the product is out of stock. We will not receive more stock until next season)

Flexible Control

You can control the AC directly from the control panel or with the remote control. You can also control it with the DELTACO Smart Home app, which is easily installed on your smartphone. Additionally, if you have a voice assistant at home, such as Amazon Alexa or Google Home, you can easily control your desired indoor climate using your voice - smart, right?

Smart Home App

You can integrate your indoor climate as part of your smart home by installing the DELTACO Smart Home app. With the app, you can easily set a timer with a time frame of up to 24 hours or use the scheduling assistant to choose when your AC should be on or off. Installing the app on your mobile phone is easy, and you simply follow the instructions to connect it to your wireless network. This way, you can take control of your indoor climate and have a more energy-efficient experience in your home.

4-in-1 design,

With cooling, heating, dehumidifying, and fan functions. It has an A energy rating and is quiet at 54-65 dB(A). It can cool larger areas up to 30 m² with an airflow of 400 m³/hour and can dehumidify up to 24liters/day. It also has a sleep mode, swing function, washable filter, and LED panel to display the temperature.

Window sealing kit included

The unit is easily installed in a window, and the convenient window sealing kit prevents outdoor air from flowing back in, allowing you to maintain the desired indoor climate. As it does not require permanent installation, it is suitable for both apartments and houses.

Easily moved between rooms

The AC is compact and equipped with wheels, making it easy to move wherever you want to achieve a comfortable indoor temperature, whether it's in your home office or bedroom.
